Madrid Transportation at a Glance

3.1 Madrid Metro – Zones, Lines & All Available Passes

The Madrid metro is the most popular way to get around Madrid. Its 12 metro lines, 300+ stations and several other unique connections to some of the harder to reach places makes it one of the most accessible metro systems in Europe. Continue reading for a complete breakdown of the Madrid metro system.

3.2 Madrid Buses (EMT) – Routes, Night Buses & Airport Shuttle

The Municipal Transport Company of Madrid (EMT) is in charge of Madrid's ultra efficient bus system. Comprised of over 200 bus lines with roughly 2,000 buses in operation, the bus system in Madrid is a great way to get around the city as it can take you to many places that the Madrid metro can't reach. The EMT buses are blue city buses that operate within the central zone of Madrid – meaning they do not travel throughout the entire province of Madrid, but only the city of Madrid. Skip ahead for more info on [how to travel through the Madrid province by bus](#).

Madrid Transportation at a Glance

3.3 Metro Ligero Madrid – The Light Rail of Madrid

The Metro Ligero is Madrid's Light Rail system. It's an above ground metro system that connects Madrid through 4 lines and over 50 stations. However, this transport system is different from the Madrid Metro as it connects travelers to the less central areas of the city. You will find them more in the suburban areas of Madrid, connecting Zone A with zone B1, B2 and B3.

3.4 Cercanías Madrid – The Regional Trains of Madrid

Like the Metro Ligero, the Cercanías Madrid is an above ground train system. However, the Cercanías system takes travellers through the entire region of Madrid. Not just the suburbs of the of Madrid city, but the actual province of Madrid. The Cercanías trains operate in partnership with Spain's high speed train network – called Renfe – allowing it to be fast, reliable and comfortable. With 9 lines and over 90 stations, Cercanías offers great connections to the small towns and areas within the Madrid region.

Madrid Transportation at a Glance

3.5 Autobuses Interurbanos – The Suburban Buses of Madrid

Unlike the rest of the Madrid public transport system, the suburban buses are run by a network of private companies that travel throughout the region of Madrid. There are over 300 lines in operation with roughly 20,000 operations each day. These buses depart from various central stations in Madrid, connecting travelers to hundreds of stops outside of the city.

5.1 Renting e-Scooters, e-Bikes & Motor Scooters in Madrid with Discounts

Electric transportation is on the rise around the world and Madrid is no different! If you're looking for a unique and affordable way to travel around Madrid while reducing your carbon footprint, then we recommend downloading one of the many apps out there! In Madrid you'll find e-Scooters (kick scooters), e-Bikes and Motor Scooters parked in the streets just waiting to be used. All you need to do is download the corresponding app, hire one of them and off you go!

Check out our detailed list of **top recommended e-Scooter, e-Bike and Motor Scooter companies in Madrid** companies in the city and **receive some exclusive discounts on your next ride!**
