

Sustainability and City Systems Project
RESEARCH

GROUP NUMBER: _____

CLASS: _____

NAME(S): _____

Instructions: Use this worksheet to organize the information you find during your research.

What is the system's purpose?

How does the system currently work in Madrid?

What environmental, social, or economic issues are associated with this system?

What specific actions or changes could improve the sustainability of this system?

What statistics, facts, or case studies support your ideas? Include at least 3 sources.

On the back of this page, draw a diagram or model of how the system works. Include each part of the system.
